This document is meant to clarify questions regarding which insurance plans we are in network with. We have tried to make this list as comprehensive as possible, but the insurance landscape changes from day to day so it will be updated as things change. Please remember that at the end of the day, it is the patient's responsibility to find out what their insurance covers and does not.

- A significant part of any insurance plan is whether or not the patient must obtain a referral in order to be seen by a specialist such as a dermatologist. An **HMO** insurance plan requires the patient to obtain a referral from their primary care physician in order to see a specialist. A **PPO** insurance does not require a referral. In general, patients with a POS plan or an EPO plan do not require referral, but this can vary among insurance companies. **Please note that it is the patient's responsibility to know if their insurance plan requires a referral and to obtain the referral in time for the appointment.**
- Please note that since **Nicholas Solarino, PA-C, Salvatore Lipuma, PA-C, Cody Archibald, PA-C, Athena McDonald-Smith, PA-C** bill under Dr. Vine, any insurance she is in network with, they are also in network with. This means that when you obtain a referral for an appointment with any of them, you would request that Dr Kathleen Vine be put on the referral
- We have just recently started taking Healthfirst and Fidelis, please note that these insurances are billed under Dr Anne Hardick Dacko so if you do receive a bill with her as the provider that is why.
- If we tell you we don't participate with your insurance, please call your insurance company (you can find the number for member services/customer service on the back of your insurance card), and request a list of providers that are in network with your insurance.
- We collect a specialist copay at the time of the visit if your plan calls for one. Any questions regarding copays, coinsurances, deductibles, or any other specific coverage questions should be directed to your insurance company. They can provide you with detailed information about your plan better than anyone at the front desk plan. **Every insurance plan is different. It is always first and foremost the patient's responsibility to find out any specific details of their insurance.**

Insurances accepted

1199	No referral required
AARP	<p>This is a secondary insurance plan for patients who have Medicare as their primary insurance. This plan is not the same as AARP Medicare Complete</p> <p>No referral required</p>
